

CETAS has appointed NETiKA Business Solutions Vietnam as their Full-Service Partner for NAVBuild

Chennai, Aug 29, 2019 (Issuewire.com) - Vietnam has an enviable position in Asia as being one of the fastest-growing economies. This presents all companies, particularly companies in the Construction Industry, with specific challenges to not only be a part of that growth but also to adopt organizational enhancements that will drive profitability and provide a competitive edge. Knowing how to achieve this is key. Fortunately, for the Vietnamese Construction Industry, a new 'tool' is available that is looking to revolutionize how teams to plan, build, manage and deliver their projects in a unified and coherent way.

NAVBUILD, purpose-built for Civil Construction, MEP, HVAC, Real Estate, Interior fit-out specialists, Industrial Automation and Project Services Industries. This versatile software tool will provide functionality specifically designed for their needs. The brains behind NAVBUILD are CETAS Information Technology, Pvt Ltd (CETAS) who recently announced a new strategic partnership with NETiKA Business Solution Vietnam (NETiKA), an ERP Consulting Services provider with a long and healthy track record in Vietnam.

When asked about the importance of NAVBUILD for Vietnam, Mr. Jean Ehlinger, Managing Director of NETiKA said "We should never forget that if we fail to prepare, then we are only preparing to fail. CETAS has developed NAVBUILD as an end-to-end ERP solution for an industry that will help companies plan and execute projects in such detail, that meeting the toughest strategic objectives is achievable."

"NETiKA has a deep knowledge and expertise in ERP, which should prove to be extremely valuable for our current and future customers," said Prakash Kandaraj, Director Channel Development, CETAS. "This partnership aligns with our core strategy on many fronts and we are excited to introduce it to Vietnam."
