We are lucky enough to work with some of the most influential and enterprising private organisations in the world and are proud to share their message with our readers. Relying on reader insight and experience to provide nominations to the panel remains the cornerstone of our program and to identify industry leaders, individuals, teams and organisations that represent the benchmark of achievement and best practice in the business world.”

The ACQ5 Global Awards honour the leading deal teams, firms and professionals whose activities set the standard for our markets. This year, companies and individuals, representing every major market in the world, became finalists for the awards.

“Operating a legitimately independent nomination process, our award winners are chosen by our readership. Every year, we seek their assistance of our readers, the industry itself, in recognising industry leaders, eminent individuals, exemplary teams and distinguished businesses, which we believe represent the benchmark of achievement and best practice in a variety of fields – and every year, we turn to them to help as we strive to recognise an ever-widening spectrum of services, markets, industries and organisations that serve our global market place. We believe that by consulting our readers we can better identify the groups that are confronting the issues which face us at this ongoing complex juncture, and our awards will rise above the status of participation certificate and actually be an endorsement of their work.” Robson continued.
