

Grill Daddy helps put the taste back into Barbecue!

Steam Cleaning Brushes are making grilling cleaner and safer!

Greenwich, Aug 12, 2019 (Issuewire.com) - The month of August heralds as the jewel of the summer with warm weather and lazy days filled with family, friends and the outdoors. With that comes the great American pass time of Barbecuing. But the delicious visions of such cooking may not match the actual results if baked-on grease and food particles haven't been effectively removed from the grilling surface. Grill Daddy rectifies this situation with its line of patented steam-cleaning grill brushes. And grilling isn't just for summer-time anymore. Most Americans enjoy their grills year-round evidenced by the fast-rising number of outdoor cooking shows, BBQ bloggers and other social media tools.

Once you use a Grill Daddy you are hooked. Traditional grill brushes just don't get the job done. Grill Daddy's patented-design steam cleaning grill brush now grants this difficult-to-satisfy wish with incomparable cleaning ability that sterilizes as it cleans. Some key elements that set Grill Daddy apart from other grill brushes are its ergonomic handles and its specially designed stainless steel bristles that reach into all nooks and crannies of the grill grate and surface. The product's brush head is carefully designed to withstand rigorous use without the risk of any bristles coming loose - unlike many other brushes in the marketplace. Shoppers who want to make grilling safer, easier and better tasking this

summer can purchase all GRILL DADDY products online at www.buygrilldaddy.com

GRILL DADDY was born of its developer's frustration with flimsy, throwaway grill brushes that just didn't accomplish their aim. Disgusted with the charred, gunky food coming off dirty, greasy grills, Grill Daddy's founder, Michael Wales, came up with the Grill Daddy Steam-Cleaning Brush, which produces a sparkling, deep down clean grill every time using the power of steam - no harsh chemicals or sprays - just water. Clean & Green.
