

Ksolves' Dashboard Ninja Crosses 100+ Downloads and becomes Number 1 App on the Odoo Apps Store

It takes hard work to be number one, and Ksolves India Private Limited has put in the work and hours to be where it is today on Odoo Apps Store

Noida, Aug 28, 2019 (Issuewire.com) - It takes hard work to be number one, and **Ksolves India Private Limited** has put in the work and hours to be where it is today.

Ksolves is a seven years old [Software Development Company](#) that ventured into Odoo Apps development during the beginning of this year. After establishing a name for itself in the Software Development world, it seemed organic for the company to expand itself into a product-based company as well. This is how Ksolves' Odoo Apps journey started.

Within 7 months of its launch, Ksolves achieved the unthinkable. Ksolves' Flagship Odoo App, Dashboard Ninja crossed the 100+ downloads mark and is currently holding its pedestal as the Number One Odoo App and Odoo Company on the [Odoo Apps Store](#).

Dashboard Ninja is one of its kind [Odoo Dashboard app](#) that makes users Odoo experience better than ever. A must need for every Odoo user, this dashboard app helps in creating robust and organized dashboards for your different departments like Sales, Accounts, Helpdesk, POS, etc. It's easy to understand UI not only allows Odoo users to save their precious time but also helps them make important business decisions much more quickly by displaying important stats in animated charts and tile format.

Ranked as the Number One Odoo Apps in on the Odoo Apps store, there is no stopping our flagship product. We have new releases planned for each version and our aim is to keep adding more features to

the app to make the lives of Odoo users much easier and exciting. We're sure, Dashboard Ninja has the capability to be on the must-buy Odoo Apps list of each Odoo user soon.

If you wish to know more about [Dashboard Ninja](https://dashboardninja.kappso.com/) or wish to have a Free Demo, please visit <https://dashboardninja.kappso.com/> (Username : demo | Password : demo). For a personal Demo, please drop us an email at sales@ksolves.com

Ksolves has several other Odoo apps in the market. It recently launched a must-have [Odoo List View Manager](#) app, which helps Odoo users have much more control over their Odoo List View. It has much-needed features like Column reordering, Hide/Show Column per user, Inline Editing, Search support on Many2one and Many2many fields, Sticky Header & Many More.

Another spectacular recent Odoo Apps release from Ksolves is the Instant Shop Filter app. This amazing app helps solve a major issue that all Odoo website users were facing of page reloading at each command. The app enriches the Odoo website users experience to another level altogether.

Ksolves Odoo Apps journey has just started and there's a long way to go but with a team of dedicated and smart Odoo professionals, the company is sure that it is there in the market for a long haul and shall maintain its position of Number One Odoo Company in the Odoo market for years to come.

If you have any Odoo Customization, Development, Implementation or Integration requirements, please feel free to book an appointment with our Odoo Experts.
