

All That You Can Buy From The Bunker

THE BUNKER

Hobart, Sep 11, 2019 (Issuewire.com) - We are [The Bunker](#). We are best known for plywood, apart from that, we also sell steel and other building supplies. We, at The Bunker, can cater to all your construction needs and even your small DIY projects. We have a huge stock of plywood and sheeting supplies such as steel SHS, RHS, angle, MDF, V joint board, melamine, and Pine framing timber. If you want to buy these products then we are situated on Kennedy Dr in Cambridge and we also offer delivery options to the greater Hobart area as well as Tasmania.

Steel products

When you are at the construction site and you need steel then order it hassle-free from The Bunker, as we carry a range of steel products such as RHS, SHS, angle, flat bar, pipe, and much more. While the steel products we delivered are produced to meet Australian standards. We also sell steel products by the meter or in full length.

Sheeting and plywood products

Along with different steel products, we specialize in providing sheathing and plywood products that can be used for building purposes. You can shop from a wide range and quality of Pine or hardwood structural ply or the decorative Hoop pine and Birch plywood from The Bunker.

We also sell:

- Formwork and film faced plywood
- Marine plywood
- Decorative plywood
- Compressed sheathing
- External sheet cladding
- Flooring sheathing
- Cement sheathing
- Timber veneer
- And internal sheet lining

All these products are stocked at our warehouses, while if you are looking for something specific that is not available in the store then we can source it and order in store for you.

Framing and structural timber

You can get Pine framing timber treated or untreated from The Bunker. We also supply LVL (laminated vertical lumber) that is used for structural beams underfloor and roof trusses. However, LVL is sold on an order basis and any size or length can be organized to be in store on your request.

Although, you can also order structural timber products like muscle beams and glue lam beams from us. We will also help you find the right product for the job if your project requires structural timber.

Contact the experts
