Barcoding Inc. and Wireless Innovations Announce Strategic Nationwide Partnership

Passaic, Sep 10, 2019 (Issuewire.com**)** - Barcoding Inc., the leader in supply chain efficiency, accuracy and connectivity, and Wireless Innovations, a Sprint platinum partner, have announced a nationwide partnership to deliver innovative combined solutions to organizations in the mobile and wireless industries.

Together, Barcoding, Inc. and Wireless Innovations now deliver a scalable solution for enterprise and mid-market customers. The partnership draws on strengths of both companies, combining the best of Barcoding's expertise and approach to process, people and technology with Wireless Innovations' Sprint offerings, which focus on IoT and integrated wireless solutions today, while paving the way for 5G technology.

"This partnership with Barcoding, Inc. delivers a solid solution for our customers because it brings them an integrated solution for their wireless and supply chain needs," said Mike Wodzisz, Wireless Innovations' Vice President of Sales for the Business Dealer Program. "There is an immediate synergy that provides a customer-centric solution strengthened by the participation of each partner."

Through the partnership, Wireless Innovations draws from Barcoding's expertise in the design, deployment and management of tailored hardware and IoT systems for the integration necessary to create endpoint technologies tailored to customers. With a wealth of experience and knowledge in supply chain automation, Barcoding will help Wireless Innovations leverage the Sprint network for technological transformation.

"We are working with the Wireless Innovations team to deconstruct their customers' business challenges from a process and people perspective, which allows us to use our technology to streamline efficiency in Sprint's network," said Ken Currie, Vice President of Business Development for Barcoding. "This partnership grants us new access and resources to provide, build, deploy and manage the solutions we can design."
