

Custom Glass and Glazing Company in Cape Town

Western Cape, Sep 19, 2019 (Issuewire.com) - [Richard's glass and glazing](#) are specialists in a variety of glass, offering all types of glass installations and glazing services. Located in Cape Town, the company designs manufactures and provides various glass systems to meet the requirements of all their different clients.

Products offered by Richard's custom glass and glazing.

Showers

The experienced team of the company installs showers with traditional swing doors or frameless sliding shower doors. The custom installation provides the clients with the flexibility of changing anything. They can create any specific design or glaze it more for extra privacy, according to what the client's requirements are.

Splashbacks and mirror cladding

All glass splashbacks are useful for protecting the walls of your kitchen. They are also very easy to clean and maintain as they are made of a single solid piece of glass. The company offers a vast range of finishes for splashbacks such as plain, back-painted, matte, frosted or with a digitally printed image, etc.

Entrances

A great way to add a modern aesthetic appeal and create an open feeling is by installing an all-glass entrance to any building. Glass entrances offered by Richards Glass and Glazing are easy to replace due to the convenient installation systems. These glass entrances are SABS approved as well as air and watertight.

Office partitioning

Richard's custom glass and glazing company offer glass office partitions in both framed and frameless designs which can be fitted with sliding doors or hinge doors. The benefit of installing glass partitions to an office is that light can enter the space through it, but the sound is blocked.

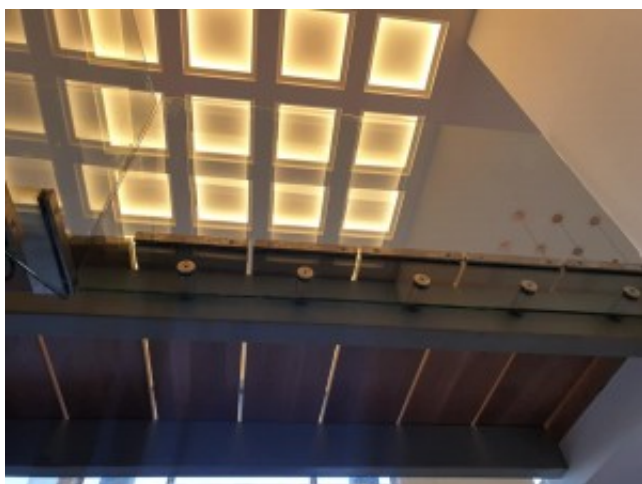

Bullet-proof glass

Bullet-proof glass is manufactured using two layers; a soft interlayer and a hard-resistant layer. The bullet is slowed down through the various layers and eventually stops. However, you need to keep in mind that bullet-proof glass can only stop the caliber of the bullet it is designed for. Richard's custom glass and glazing provide a professional bullet-proof glass installation service to their clients.

The company also offers glass sports courts, pool panels, rim-flows, walk-on floors and more. To learn more about the services and products of Richard's custom glass and glazing, please visit their official website: <https://framelessglass.capetown/>.

About Richard – The owner of Richard's custom glass and glazing

The company is owned and run by Richard Rowe who has more than 20 years of experience in the industry. He specializes in glass polishing, cutting and laminating techniques. He launched PVB free plant in the Western Cape in the late 1990s. Being in the glass trade for a long time, Richard has a long-standing relationship with his suppliers and so, he can provide his clients with the best pricing.
