Gas Turbines Market Size Estimated to Observe Significant Growth by 2025

New York City, Sep 26, 2019 (Issuewire.com) - **Gas Turbine** is a continuous flow of high speed rotating Gas as working medium to drive the impeller and the fuel energy into useful work of internal combustion power machinery, is a kind of rotating impeller type heat engine. The rising demand for natural gas-fired power plants, rising demand for electricity, reduction in emissions of carbon dioxide, and availability of efficient power technology are driving the gas turbines market.

The global **Gas Turbines market** was valued at xx million US\$ in 2018 and will reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2019-2025.

This report focuses on Gas Turbines volume and value at the global level, regional level and company level. From a global perspective, this report represents an overall Gas Turbines market size by analyzing historical data and future prospect. Regionally, this report categorizes the production, apparent consumption, export and import of Gas Turbines in North America, Europe, China, Japan, Southeast Asia and India.

For each manufacturer covered, this report analyzes their Gas Turbines manufacturing sites, capacity, production, ex-factory price, revenue and market share in the global market.

The following manufacturers are covered:

- BHEL
- Centrax
- Vericor Power
- Zorya
- Ansaldo
- GE
- Harbin Electric
- Kawasaki Heavy Industries
- MAN Diesel
- MHPS
- OPRA
- Siemens
- Solar Turbines

Segment by Regions

- North America
- Europe
- China
- Japan
- Southeast Asia
- India

Segment by Type

- 1 60 MW
- 61 -180 MW
- More than 180 MW

Segment by Application

- Power Plants
- Ship
- Other

Highlights of the Global Gas Turbines market report:

- A complete framework analysis, including an assessment of the parent market
- An empirical assessment of the trajectory of the market
- Market segmentation up to the second or third level
- Report and evaluation of recent industrial developments
- · Major changes in market dynamics
- Emerging niche segments and regional markets
- Historical, present, and prospective size of the market from the perspective of both value and volume
- Market shares and strategies of leading players
- Recommendations to companies to substantiate their foothold in the market
