Scroll through 1000 hand-selected amazing photos to select and customize your next travel itinerary

## A Visually Oriented Travel Planning App

Choose your next travel destination from amazing photography.

**Tokyo, Sep 17, 2019** ([Issuewire.com](http://Issuewire.com)) - Travel planning doesn't always mean smooth resolution, therefore 8xplorer releases for the first time on the market the most user-friendly and visually inspiring travel planning application. Featuring intuitive usability, image-centric approach and responsive yet interactive map on which all user's favourite destination will pop up, 8xplorer app offers the most effective, fun and personal way to plan everyone's travel and vacation.

<https://youtu.be/L6PyxJy4P7k>

The 8xplorer app provides three main features:

- **1. Browse stunning places**

While browsing through all the 1000 spot's photos, the team accurately selected to guarantee the best visual experience possible, the user can swipe either right (like, I want to go) or left (nope, not interested) to start narrowing down where he would like to travel.

- **2. Map your next holiday**

The interactive map keeps track of all the spots the user liked and saves those pinpointing them

into an overview of the world map. This way the user can easily hover over the country/spot he wants to go and start planning the trip.

- **3.Filter your likes**

Last and most important feature, the actual itinerary planning goes through the process of finding the spot that meets user's conditions applying several smart filters such as budget, days of intended stay, kind of activity, security etc... to grant the best-personalized experience.

*"There's always some inefficiency in the travel planning world and it may eventually result in the customer dissatisfaction. Indeed there's still not a really complete and thorough travel planning service.*

*The goal of us is not to leave those long yearned places unvisited, much time only due to an inefficiency in the system.*

*Indeed the travel planning world must be updated and everyone should be able to plan his own trip in just 3 minutes"*

Takayoshi Kobayashi

8xplorer CEO

8xplorer is bringing a revolution to the travel planning world since 2018, empowering every single user to be able to assemble from scratch his own most unique and personally on the point travel itinerary. Looking at the future, the main goal of 8xplorer is to implement a thorough "before, meanwhile and after" travel service support, being able to learn from a user in order to offer a better travel plan suggestion based on matching rate.
