

Sensational September 28 Auction with important personal Adolf Hitler items sold by US Veteran

Kirchheim, Sep 24, 2019 ([IssueWire.com](http://www.IssueWire.com)) - The announcement of the sale of the highly important grouping of Museum Quality authentic **Adolf Hitler** Items from the legendary **Ben Lieber Collection** as well as related works of art and important documents such as the official Warrant from 1932 making Hitler a German Citizen as well as one of the earliest photos showing the 6-year old with his classmates, a signed first edition of "**Mein Kampf**" and Hitler's personal "**Gun of Destiny**", has created an unprecedented amount of interest from leading private collectors, museums and institutions around the world.

The Ben Lieber Collection includes one of only very few absolutely authentic and extensively documented original personal Visor Hats and Brown Shirts of Adolf Hitler, as well as his personal medals such as the Iron Cross and the Blood Order.

The documentation of this museum-quality grouping goes back to 1945 when Ben Lieber, a Jewish US - Officer found the items in Hitler's Private Apartment at Prinzregentenplatz 18 in Munich.

This sale is a unique opportunity for museums and important private collections to acquire one of the most important pieces of WWII Memorabilia still in existence today!

Authentic historical artifacts are of the utmost importance for research. Only original historical objects will provide a proper view of history for future generations.

Those who prefer to keep certain historical relicts invisible and banned from the public should know that the Roman custom of „Damnatio Memoriae“, the destruction of portraits, symbols, and even names in official documents and inscriptions of controversial rulers has resulted in the opposite. Today the names of the truly evil Emperors, Nero, and Caligula, are still known to the general public, most of the others are remembered by historians only.

This auction sale will be held on September 28, 2019, and will also include some highly important collectibles from Imperial Russia, an Austrian Order of the Golden Fleece in diamonds and emeralds as well as an important Portrait Bust of the founder of modern Turkey Kemal Atatürk by Josef Thorak.
