

Cambridge Dental Practice Burnside Dental Surgery Now Using Latest Technology for Invisalign

Invisalign is well known as a superior dental method for wonderful looking teeth. Advances have been made in the area and now leading Cambridge dental practice, Burnside Dental Surgery, is happy to offer Invisalign with the latest technology.

Cambridge, Oct 11, 2019 (Issuewire.com) - A smile can change everything; your confidence, your outlook, your life. And with Invisalign, achieving the smile you always dreamt of doesn't have to be a big deal. In fact, it barely has to impact your day-to-day life at all.

Invisalign is a revolutionary, ever-evolving clear aligner system that enables teeth to be straightened discreetly. This is done through the use of clear aligners that are worn on the teeth which engage with tooth-colored attachments placed on the teeth to move them into the desired position.

In Cambridge, there's no exception, and Invisalign has the same wonderful reputation. Leading the way in this area has been Burnside Dental Surgery. In exciting news, Burnside Dental Surgery has taken their Invisalign Services to the next level with the addition of the latest technology, the new iTero Element 2, which makes Invisalign more accurate and quicker to execute. Patients have responded with

enthusiasm.

“We try our best to be caught up with the best in proven technology,” commented a spokesperson from the practice. “iTero Element 2 is an amazing addition to what we offer.”

The iTero Element 2 delivers three times faster checkups, has ten times fewer rejections, seven times fewer fit issues and allows simulated outcomes to be viewed by patients. All of this provides a much better overall experience without adding to cost.

The feedback from those who have experienced Invisalign with the iTero Element 2 at Burnside Dental Surgery endorses it completely.

A recent customer said, “I am very happy with my new straightened teeth, the results from Invisalign have been amazing! The team at Burnside (Cambridge) were very friendly and provided a highly professional service at all times - Excellent dental practice!”
