

Chronos Agency's new HQ in KL's Golden Triangle

Chronos Agency's KL headquarters offers 360-views for their Digital Nomads to brainstorm their eCommerce email marketing campaigns.

Kuala Lumpur, Oct 25, 2019 (Issuewire.com) - Chronos Agency's KL headquarters offers 360-views for their Digital Nomads

What's a sure-fire sign that your team is thriving and expanding?

When you can finally decide to **lay down some real estate** on your once 100% remote-based team to meet on the daily! A collaborative hub to buckle down and hash out their best and most vivid eCommerce email marketing campaigns!

[Chronos Agency](#) has set up its first and newest headquarters in sunny Kuala Lumpur! On June 10th, Chronos Agency set up its first centralized hub for their digitally nomadic Chronosians located in WeWork at Equatorial Plaza.

Nestled in the Golden Triangle of KL, the 5-floors of office space features floor-to-ceiling windows, a light-filled airy environment pulsing with energy.

The Chronos team is strategically situated on the 18th floor. One of the team's many perks includes a daily free-flow of coffee—did we mention the in-house barista?

Chronosians can conduct their brain-storming in full-view of KL's most famous landmarks like the Twin Towers and the KL Tower.

Does this space fuel the creativity needed for epic eCommerce email marketing campaigns?—that's for [you to decide](#).

Chronos Agency has always invested heavily in company culture with [regular workations](#), open-access learning resources and a strong belief in self-mastery for everyone.

To date, they've managed to run a tight ship even with an ever-growing team all around Asia— 80% of whom reside in the Philippines!

Founders of Chronos Agency— Joshua, CEO, and Louis, COO, had set their sights on a space that would serve as a company-wide point of convergence to support the team during their work hours, their free time, and everything in between.

Finally, they found it—the perfect space for their once fully remote eCommerce email marketing agency to converge.

Where Mondays never feel like Mondays

At Chronos, we help you build a life of fewer obligation, more freedom. Less going through the motions, more fulfillment.

[Chronos Agency](#) is the agency that coined Done-For-You email marketing for eCommerce businesses everywhere.

By choosing to work exclusively with eCommerce partners or brands that are good for them, Chronos Agency's biggest focus lies in optimizing client engagement and increasing revenue.

Of course, when there is work there is also play.

It's not about work-life balance, it's work-life integration. The team in KL isn't shackled with your typical 9 - 6 workday hours for 7 days a week.

Instead, they still stay true to their creed of a nomadic working style that's flexible for everyone—with some improvements to suit their growing team.

The team divides their week between set days of being in the office and remote-working—a strategic remote-centralized working arrangement that enables freedom for creativity **and** in-person collaboration.

Seeing how cool their office is, you'll most likely find a Chronosian hanging around the pantry or the couch every other day be it Monday or Friday.

Onwards and Upwards

At Chronos, the founders have built the company with the idea that we should feel inspired by our careers, and not burdened by our to-do lists. There is a constant investment in their clients and in themselves—and it shows.

With a 20 -30% boost in ROI through email marketing alone, the team owes its success rate by drawing from their cross-industry experience and data-driven strategies.

What's next? The team is set to expand in size across different time zones. With future plans of setting up another headquarters in LA, the globe is their canvas.

Speaking of LA, founders Josh and Louis [recently attended Klaviyo's annual conference Klaviyo: Bos 2019](#) in Boston — so expect more to come!

Chronos Agency has set its sights on becoming the “the fastest growing eCommerce email marketing agency you’ve never heard of.” They’ll let the results do the talking, everything else comes as a natural benefit.

Can't get enough of the team's workspace? Take [the virtual tour](#) here to get a better feel of where the magic happens or better yet, watch our video below!
