

EDS Technologies Partners with eMudhra Limited

Bengaluru, Oct 31, 2019 (Issuewire.com) - EDS Technologies Pvt. Ltd (EDST), one of the largest Engineering and Enterprise solutions companies in India partners with eMudhra limited to provide a seamless secure digital experience to enterprises in India. With this partnership, EDST as an SAP gold partner with a comprehensive understanding of SAP framework and implementation experience would help integrate eMudhra solutions with the SAP platform. The application of digital signatures to large volumes of invoices, sales orders, purchase orders, income tax forms, and other SAP business documents helps organizations to streamline their workflow through automation and digitization. In addition, integration of digital signatures enables organizations to secure documents, increase efficiency, reduce costs, enhance green credentials and comply with regulatory requirements.

“We are excited about this partnership with eMudhra as it reinforces our efforts and commitment to enable the digital transformation of businesses. We look forward to using our industry know-how, SAP expertise and quick implementation techniques to help organizations script a sustainable story and be part of India’s digital journey”, said Mr. Y. Ravi Kiran, Vice President - Strategy & Sales Operations, EDS Technologies Pvt. Ltd.

“We are privileged to enter into a strategic partnership with EDS Technologies. We hope this partnership will create a new avenue for driving paperless transformation by leveraging AI-enabled document process automation for enterprises across industries. This is an important step in enabling the proliferation of digital technologies worldwide,” said Biju Varghese, Senior Vice President - Enterprise Business, eMudhra Ltd.

About EDS Technologies Pvt. Ltd.:

EDS Technologies Pvt. Ltd. (EDST), established in 1995, is one of the largest technology solutions provider in India. EDST partnering with global leaders including Dassault Systemes, SAP, Presagis, VT-MAK, and others provides PLM, ERP, 3D Visual simulation solutions, e-learning and on-site resources bringing in the most complete solution for any size and type of industry.

EDST’s differentiation is its domain expertise, consultative approach and hands-on understanding of customer requirements required to drive successful implementations with world-class training and technical support. With nearly two decades of experience, EDST has the largest customer base in the Indian market with more than 1500 customers from aerospace, automotive and supply chain, industrial machinery, high-tech, and electronics, railways, infrastructure, consumer packaged goods, engineering service providers, defense, research, and academia.
