

Elite Tyre Solutions incorporate Nexen into its collection of Tyres

Bedford, Oct 13, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Elite tyres solutions, one of the leading auto garages in the UK, has unveiled its new brand incorporation in its arsenal of an existing vast collection of tyres. With the increasing inquiry at the garage about the Nexen's performance and budget tyres, it has took the step to stock Nexen's top model car tyres in its facility. The garage provides excellent condition tyres in all of Luton and neighbouring areas. With the inclusion of Nexen in the store it want to suffice the need of drivers in Luton to get affordable budget tyres that are also high on quality.

Nexen is a brand that has been in the market since 1942 and has been continuously evolving itself ever since. The quality of tyres have improved significantly in the last few decades and therefore, the driver's community is shifting its focus towards Nexen substantially. The company was highlighted in the market, when they won numerous global awards for their tyres like IF Design Award (2011), Dot Design Award (2012), G-Mark (2013), IDEA Award (2014). Experts at Elite tyre solutions suggest that the increase in demand can be accredited to many car manufacturing brands who are using Nexen for their original equipment.

The Nexen tyres that are highly recommended by Elite Tyre Solutions are:

N blue ECO

The tyres are manufactured to cater to the needs of summer conditions and have been a sensation among the driver's community. The tyres are not only eco-friendly but also saves greatly on fuel. The low noise and superb wet performance make it comfortable to amazing levels.

N Priz AH8

The [tyres Luton](#) is known for its high performance even when the weather is not suitable that is winter conditions. The sipes present in the tread of these tyres make it easier to control a vehicle in harsh winters. Some of the extra added features consist of low noise and high fuel efficiency.
