The AQUAGRIP from UHLSPORT is specially designed to ensure that you have the optimum grip and superb control no matter the weather. Come rain, shine, or snow, you can rest assured that you'll never be able to blame your gloves if you lose a grip on the ball.

Using their AQUA additives, combined with carefully designed high-grip zones on the palms, these gloves will provide excellent amounts of grip in any weather condition. Puma ONE GRIP 1 HYBRID PRO Goalie Gloves

These are top-level match gloves that are designed for maximum grip in both dry and wet weather, thanks to their 4mm thick Ultimate Grip Latex palms. The hybrid semi gun cut fingers and twin wrapped thumb area make for an impressively comfortable and snug fit. They also increase the area of the [goalie gloves](#) in contact with the ball and ensure the support necessary to protect your hand from impacts.

The anatomically spread tooling, mesh finger gussets, and neoprene body construction all go to further the fit and comfort. The embossed silicon punching zone provides incredible accuracy and protection, as well as a boost to the power of your punches.

Adidas PREDATOR PRO Goalie Gloves

With 3.5mm of super-grippy latex cushioning on the palm and an adaptive and comfortable backhand made of a flexible knit, these match-day gloves are ideal for taking control of your six-yard box.
