

Haizol's OEM Manufacturing Platform Backed by Top Global Companies

Haizol, a go to service for machine parts, received early stage venture funding for its platform.

Shanghai, Oct 23, 2019 (Issuewire.com) - HAIZOL is China's leading professional online sourcing service platform for custom parts and components. With capabilities in Assembly, CNC Machining, Die Casting, Injection Molding, Casting, Fabrication, and Metal Stamping, Haizol can fulfil diverse machining requirements. From getting an instant quote, Haizol handles the order, manufacturing, quality and inspection, and shipment.

Since its launch in 2015, HAIZOL Online has enthusiastically awarded multiple rounds of committed financial investment from the world's top establishment and financial institutes such as Haier, Woofoo Capital, Eastern Bell Capital, Stala Capital and Hongtai Capital Holdings. Qingdao Haier Venture Capital, an arm of the Haier Group, and one of the early-stage backers of Haizol, is a Chinese collective multinational consumer electronics and home goods brand.

HAIZOL has since established manufacturing contracts with over 600,000 parts and components

factories throughout Asia. HAIZOL has been actively servicing procurement partners from more than 100 different countries worldwide, successfully establishing long-term, profitable business relationships. They also offer a one-stop sourcing solution whereby they handle and manufacture the whole order for their customer. A streamlined and efficient process offering high-quality parts.

Headquartered in Shanghai, HAIZOL was founded in 2015 and was initially funded by the Haier Group of Companies, a market share leader for major appliances and consumer electronics. HAIZOL is one of the largest online OEM manufacturers in the world, specializing in CNC Machining, Die Casting, Injection Molding, Casting, Mold Making, Fabrication, and Metal Stamping. Follow them on LinkedIn today to keep up with the latest news.
