

The Builder Assist Gets Instant Download WH&S Templates

The Builder Assist gets instant download work health & safety documents and procedures templates for the construction industry.

Sydney, Oct 30, 2019 ([Issuewire.com](http://www.Issuewire.com)) - The Builder Assist gets instant download work health & safety documents and procedures templates for the construction industry.

The Builder Assist gets the instant download WH&S documents and procedures templates for the Australian Building and Construction Industry to assist Developers, Builders, Tradespeople and Owner Builders.

Also referred to as Occupational Health & Safety (OH&S) the material provided in this section will assist with WH&S/OH&S management and training requirements for the workplace.

Why is WH&S important

The "Work Health & Safety Regulations" require that the PCBU (person conducting a business or undertaking/controller/employer) must ensure the safety of its workers (employees) and the public at the place of work. All persons involved in any work should be trained to apply systems of work and work practices that are safe and without risks to health.

Here is the list of [WH&S documents templates](#) that developers, builders, and tradespeople can instantly download to use at their discretion.

[Work Health Safety Management Plans](#)

Specifically designed for each trade starting up a business, these Work Health Safety Management Plans provide support with the management of Work Health & Safety in the workplace.
