

Certificationconsultancy.com launched its new product online- ISO 22000:2018 Auditor Training PPT Presentation

Certificationconsultancy.com has introduced its new product name as ISO 22000:2018 Awareness & Auditor Training Kit online for ready reference ppt presentation to learn implementation and audit updated Food Safety Management System.

Newark, Nov 29, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Certificationconsultancy.com, well-known website for online certification solution provider has introduced its new product name as **ISO 22000:2018 Awareness & Auditor Training Kit** online for ready reference ppt presentation to learn implementation and audit updated Food Safety Management System (FSMS) requirements as per newly revised standard ISO 22000:2018 standard.

This FSMS training kit improves the systematic and proactive approach to the identification of food safety hazards and development of control measures as per the requirements of ISO 22000. ISO 22000 is the globally accepted standard for defining a food safety management system that enables food industries to control food safety hazards and achieve high benefits for business. The ISO 22000:2018 training presentation kit is prepared by the team of highly qualified professionals and experienced food safety consultants. The **ISO 22000 Certification** is required proper training for system awareness that guide you for a better understanding of FSMS as per ISO 22000:2018.

Therefore, Certificationconsultancy.com has designed [readymade ISO 22000 auditor training PPT](#) presentation kit for a comprehensive understanding of food safety management systems and the auditor's role in planning, conducting, reporting and following up on food safety management system audits. This **ISO 22000 auditor training** presentation designed and developed with the aim to help organizations in developing a systematic approach, improved compliances, improved profitability and reduction in food safety hazards.

Following contents are included in **ISO 22000:2018 PPT presentation kit**:

- More than 7 modules to cover various topics in more than 260 slides
- Reading material for the participant to get detail knowledge on ISO 22000:2018
- Workshops and case studies to take an exam for the participants
- More than 800 audit questions to audit ISO 22000 system
- Sample audit forms and templates
- Sample copy of certified ISO 22000:2018 auditor training certificate

The **ISO 22000 auditor training ppt presentation** offers relevant information about Food safety requirements and documentation process as well as steps for ISO 22000 certification. Moreover, the information can be edited so that users can craft their presentation quite easily as well as prepare the entire training presentation fast which saves their valuable time. The ISO 22000 training presentation kit introduced online at a very competitive price at just **450\$** with [Download Demo](#) facility on company's web portal www.certificationconsultancy.com
