Charles Rizzo, MD, Orthopaedic Surgeon

Get to know Orthopaedic Surgeon Dr. Charles Rizzo, who serves patients in New Jersey.
New York City, Nov 16, 2019 (Issuewire.com) - Dr. Rizzo is a board-certified orthopaedic surgeon, who specializes in orthopaedic sports medicine, shoulder surgery, and knee surgery. He is a member of several professional organizations, including the American Academy of Orthopaedic Surgeons, the New Jersey Orthopaedic Society, and the Arthroscopy Association of North America.

Currently, he practices orthopaedic surgery and sports medicine with locations in Tinton Falls and Lakewood, New Jersey. “Whether a patient seeks treatment for tennis elbow, lumbar pain, a dislocated shoulder, or stress fractures in the foot, our group will not rest until our patients receive the best treatments available. Our skilled orthopaedic surgeons perform procedures such as arthroscopic shoulder and knee surgery, partial and total knee and hip replacements, and spinal surgery. We also provide sports medicine, pain management, and orthopaedic services addressing a wide range of conditions, including hip, back, hand and wrist, elbow, foot, and ankle pain, as well as sore knees and shoulders.” as stated on the practice’s website.

A 1990 graduate of the Rosalind Franklin University of Medicine and Science, Dr. Rizzo went on to complete his internship and residency in orthopaedic surgery at New York University Medical Center. This was followed by a fellowship in sports medicine at Thomas Jefferson University Hospital Rothman Orthopaedics in Philadelphia, Pennsylvania. During this specialized training, he served as an assistant team physician for several professional teams, including the Philadelphia Eagles, the Philadelphia Flyers, and the Philadelphia Phillies, as well as numerous college and high school teams.

Among the doctor’s many professional achievements, he has served as a Master Instructor at the Orthopaedic Learning Center in Chicago, teaching other orthopaedic surgeons the most current techniques in arthroscopic knee and shoulder surgery. He has also written articles for publication on the topic of knee and shoulder instability and is currently involved in research and development of new surgical techniques.

Furthermore, he is board-certified in orthopaedic surgery, with subspecialty certification in orthopaedic sports medicine, by the American Board of Orthopaedic Surgery (ABOS). The ABOS is an organization with the goal of establishing educational and professional standards for orthopaedic residents and surgeons, as well as evaluating the qualifications and competence of orthopaedic surgeons.

Orthopaedic surgery or orthopaedics is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopaedic surgeons use both surgical and nonsurgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.
