Date: November, 16 - 17 2019 | **Time:** 9:00 AM, 24 hours non-stop

Pune, Nov 1, 2019 (Issuewire.com) - #HackathonPune, since its inception three years ago, has been an immense success throughout. It usually sees developers and tech enthusiasts from all over the country compete to develop innovative solutions on different themes, using cutting-edge technologies. The theme of the #HackathonPune this year is 'AI for Social Good – in Healthcare, Education, Environment, Agriculture and Government'.

“AI has been an inherent part of all technology discussions in recent years; it especially has immense potential in transforming lives for the better. In keeping with our constant effort to give back to society, we have consciously chosen this theme for #HackathonPune 2019, to encourage participants to leverage emerging technology and develop solutions that would help address common problems in major social sectors” said Devendra Deshmukh, CEO and Founder of e-Zest Solutions.

The #StartupBootup aims to bring early-stage entrepreneurs, ideators, innovators and thinkers in technology together under one roof, as they learn and model build a Successful Startup, from veteran entrepreneurs and thought leaders of the Startup industry.

“It has been an amazing experience collaborating with e-Zest on the #HackathonPune these past 3 years. The Megathon this year is a refreshed take on the event to build and interact with a long-term community of talented minds. I’m especially excited to see what innovative solutions and brilliant startup ideas will be presented” said Stephen Forte, Managing Director of Fresco Capital.

The Megathon 2019 also includes a Fireside Chat, featuring exclusive discussions and workshops with some of the prominent Business Heads and Microsoft MVPs, as they share their ideas on cutting-edge technologies.

Girish Chandra Deshpande, Chief Evangelist at e-Zest Solutions and event chair said “I’m looking forward to an exciting and interactive event. The Megathon is a great initiative that aims to drive innovation and value for all the communities (developers, aspiring entrepreneurs, tech enthusiasts,

industry leaders) as well as us, e-Zest, as a digital-first organization.”
