

Get to know Neurosurgeon Dr. Alireza Mohammadi, who serves patients in Cleveland, Ohio.

Alireza M. Mohammadi, MD, a Neurosurgeon with the Rose Ella Burkhardt Brain Tumor and Neuro-Oncology Center, Cleveland Clinic

New York City, Nov 5, 2019 ([Issuewire.com](http://www.Issuewire.com)) - Dr. Mohammadi is a board-certified neurosurgeon

who specializes in neurosurgical oncology including surgery and laser ablation of brain tumors as well as Radiosurgery for brain and spine. He is currently practicing at Neurosurgery Department and the Rose Ella Burkhardt Brain Tumor and Neuro-Oncology Center at the Cleveland Clinic, Ohio.

As part of the Cleveland Clinic, the Rose Ella Burkhardt Brain Tumor and Neuro-Oncology Center is a nationally recognized leader in the diagnosis and treatment of primary and metastatic brain and spine tumors, and their effects on the nervous system. Annually, the Burkhardt Brain Tumor Center physicians record approximately 8,000 patient visits and perform more than 1,500 surgeries and radiosurgery.

Since 2014, he has also served as an Assistant Professor in Neurological Surgery at the Cleveland Clinic Lerner College of Medicine. The Cleveland Clinic Lerner College of Medicine was established as a program of Case Western Reserve University School of Medicine.

On the subject of his educational background, Dr. Mohammadi earned his medical degree from Tehran University School of Medicine in Tehran, Iran in 1999. After completing his internship at the same educational venue and his residency in neurosurgery at Shohada Hospital, he relocated to the United States. There, he went on to complete his fellowship in neuro-oncology surgery at the Cleveland Clinic (2012) and his fellowships in radiosurgery at the same educational venue (2013).

In addition to having made several publications in the field of brain tumor surgery, his specialty interests include awake and sleep surgery for brain tumors like gliomas, meningiomas, brain metastases, and more. He is an international thought leader in the field of laser ablation for brain tumors and had several publications and served as an invited speaker for numerous national and international scientific meetings.

Neurosurgery, or neurological surgery, is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders which affect any portion of the nervous system including the brain, spinal cord, peripheral nerves, and extra-cranial cerebrovascular system. Neurosurgeons are doctors who diagnose and treat problems with the nervous system, often by performing surgery on the brain or spine. They treat strokes, tumors, certain types of birth defects, infections, and head or spinal cord injuries. Neurosurgical oncology in particular deals with diagnosis and treatment of benign and malignant brain tumors.
