

Rakesh Kotheri, Founder of Sherry and Diya Foundation celebrated 3 years completion

Mumbai, Nov 29, 2019 (Issuewire.com) - We wish to inform you about the event that we organized at Nariman Point, Mumbai on completion of 3 years of our [Sherry & Diya Foundation](#) was successful.

It was all because of the team members unity and assistance. People out there were really interested and showed thorough compassion towards animals as well.

Through this event, we got to know that people are also very supportive of animals and are strict opposers of animal cruelty. We also had a discussion with some people about the laws related to animals and all of them insisted on making stricter laws for animal cruelty. So, an overall view of the event was — people are very compassionate towards animals and are taking up efforts to make a better world for animals to live in.
