

Venom Motorsports Has Launched 500w Electric Dirt Bike Motocross 24V

Ontario, Nov 8, 2019 (IssueWire.com) - The most popular and trusted motor vehicle dealer, Venom Motorsports, has finally launched the all-new 500w Electric Dirt Bike Motocross 24V. This new [electric dirt bike for adults](#) from Venom Motorsports is very quiet and requires less maintenance. Equipped with new-gen equipment, the unique looking 500w Electric Dirt Bike Motocross 24V is currently available in orange, red, blue and green color. Venom Motorsports was already having 1000W and 500W 36V electric dirt bike but this new introduction will widen the option for customers.

Venom Motorsports has been dealing in the motor vehicle industry for almost 11 years. After gaining national level recognition as a leading motor vehicle dealer, Venom Motorsports has introduced many new motor vehicles. From dirt bikes to quads, Venom Motorsports deals in a wide range of high-quality motor vehicles. The introduction of 500w Electric Dirt Bike Motocross 24V will surely be one of the best gifts for electric dirt bike buffs. Venom Motorsports already had a 500W electric dirt bike but it was available in the 36V range.

The top speed of 500w Electric Dirt Bike Motocross 24V is 16Mph and it comes with an installed adjustable speed governor. With the help of the speed governor, you can adjust the speed to as low as 4km/hr. With a climbing ability of 25 degrees and a seat height of 23 inches, it is perfect for all the adventure buffs and even for kids. The brushless electric motor with a high power lead battery allows you to ride the 500w Electric Dirt Bike Motocross 24V for more than 80 minutes.

During the launch event of 500w Electric Dirt Bike Motocross 24V, the CEO of Venom Motorsports said that 'People are now turning to electric vehicles because they are quieter, easy to maintain and cheap as well. But above all this, the environmental concerns are also drawing flocks towards electric dirt bikes for adults. This is why we launched our 3rd electric vehicle in the form of 500w Electric Dirt Bike Motocross 24V. Our engineers and market analysts were working on this model for a very long time and finally, we delivered a new-gen, stylish looking and affordable electric dirt bike.'

He further added, 'All the people who have tested our new 500w Electric Dirt Bike Motocross 24V have given positive feedback. Quality and affordability are our two main concerns and through our 11 years of journey in the motor vehicle industry, we have never compromised on these two things'

The original price of 500w Electric Dirt Bike Motocross 24V is \$784.99 but because of the limited period discount, customers can buy it at just \$549.99. Venom Motorsports is offering a 6-month parts replacement warranty with this newly launched electric dirt bike and customers will not have to pay for shipping charges.
