

3rd European Congress on Vaccines and Immunology

Emphasizing Recent Advancements and Future Challenges in Vaccines, Immunization and allied fields.

London, Dec 26, 2019 ([IssueWire.com](http://www.issuewire.com)) - The aim of the Vaccines & Immunology 2020 is to promote quality research and real-world impact in an atmosphere of true international cooperation between scientists and engineers by bringing together again the world class researchers, International Communities and Industrial heads to discuss the latest developments and innovations in the fields of Vaccines.

We sincerely hope that Vaccines conferences serves as an international platform for meeting researchers from around the world, widen professional interaction and create new opportunities, including establishing new alliances.

The event will have Keynote speakers, Plenary speakers, Invited speakers and fresh contributed speakers. In addition, a variety of poster presentations along with workshops and special sessions would be interested in listeners.

Target Audience:

- Researchers & Scientists related to Vaccines R&D
- Deans and Professors
- CEO / CSO / COO
