

Brill Mindz Recognized as Reliable website and App Development Company services in the Middle East Region

‘Shebreq schools’ is the functional website through which admins can manage their schools.

Dubai, Dec 17, 2019 ([Issuewire.com](http://www.Issuewire.com)) - Brill Mindz is a globally recognized [mobile app development company in Dubai](#) offering state-of-the-art products. We know exactly what it takes with over 8 years of industry experience in IT to create an enticing application that connects with the hearts and minds of your customers. We're developing platform-wide software, including Android, iOS, and Windows.

The project 'Shebreq schools' is the functional website available in the link <http://shebreqschools.com> which has 6 different logins named as super admin, management, School admin, Student, Employee, and parent. observe brief about each part:-

Super admin

Super admin is the one who handles the entire website. There are 9 schools present on the website.

Super admin is having access to all the 9 schools. He can manage/view all the sections and schools present in the project by switching from one school to another school.

School Admin

School admin is the employee or the responsible person assigned by super admin to manage a particular school. He is having complete access to view and manage the activities inside his school. The only difference between super admin and school admin is school admin having access only inside the particular school but super admin is having access to all the 9 schools present.

Management

This the management of the 9 schools included in 'shebreq schools'. Management is the responsible person dealing with the employee salary, stock, budget for all the 9 schools. For certain requests super admin/school admin/employee/student needs approval from management.

Student

After super admin/school admin adds the student he can login with the credentials. Student can view the noticeboard/exam/marks/Routine/Attendance/fee details etc.

Employee

After super admin/school admin adds employee, he can login with the credentials. The employee can view the noticeboard/exam/Routine/Attendance/salary details/leave requests through the portal.

Parent/Guardian

After super admin/school admin adds parent, he can login with the credentials. Parents can view the noticeboard/fee details/children profile etc through the portal.

We are very grateful to our clients who trusted us with their project concept and helped us chart our growth as a globally respected website and [mobile app development company in Dubai](https://www.brillmindz.com/top-mobile-app-development-company-in-dubai-uae/). In addition to our partners who have consistently invested in turning their creative Shebreq School App idea into a success story, we also share credit with our group of Shebreq School Designers and Developers who have collaborated on over 100 successful projects.
