\*T&C Apply

Disclaimer: Results may vary from person to person, depending on skin/body type as per the scientific literature published.

**New Delhi, Dec 1, 2019 ([IssueWire.com](http://IssueWire.com))** - Clinic Dermatech has announced its groundbreaking approach to sculpting the body with '100 days of body sculpting' challenge that will sculpt your body. Yes, you can get in shape in just 100 days. The clinic has geared up with ever-effective non-invasive body contouring procedures to craft a 100-day challenge to get your guns blazing. The body-shaping procedure they undertake will simultaneously address the entire body.

Bringing entirely new technology to the category, <https://www.clinicdermatech.com/> utilizes a combination of high-end non-invasive technologies available for body shaping like Cryolipolysis, HIFU, and Radiofrequency. FDA-approved for the improvement of overall body tone and strengthening of the muscles, the body shaping treatment or fat freezing technique helps clients achieve next-level, contouring results.

In a conversation with Mr. Singh, Vice President of Clinic Dermatech, he said, "We want to see people Healthy and Happy in their life. So, it is time you pick up this 100-days challenge for body sculpting to push yourself and commit to a healthy lifestyle". He further added, "If you have packed your two-piece away because you worry about how you would look, then stop worrying and take up this 100 days body-shaping challenge with Clinic Dermatech".

This program tends to deliver permanent fat freezing with respect to stubborn fat in certain areas of the body like stomach, love handles, thighs and hips. The treatment ensures long term results as treated fat cells are destroyed permanently. Skin Rejuvenation through Ultrasound energy results in tightening and toning of the skin. The High Ultrasound result in tight firming of the skin at the particular site.
