

D1 Solutions Releases Their Latest Android App for the D1 Solutions Auto Body Shop Management Platform

Company celebrates the release of their latest Android App which provides enhanced time management and communication tools for the D1 Solutions Auto Body Shop Management Platform.

Murphy, Dec 16, 2019 ([Issuewire.com](http://www.Issuewire.com)) - [D1 Solutions](http://www.d1solutions.com), an innovative supplier of Auto Body and Collision Repair software, celebrated the release of its latest Android App which provides enhanced time management and communication tools for the D1 Solutions Auto Body Shop Management Platform.

"This latest version combined with the D1 Solutions Auto Body Shop Management Platform allows our shop to better control labor costs, manage expenses, and better communicate with our customers," said Ricardo Rocha, Managing Partner, Union Auto Body.

Serving a National customer base across the United States, D1 Solutions is an innovative leader in the Collision Repair industry with in-depth experience in creating software and technical solutions and for small, medium, and large Auto Body Shops.

Prior to releasing their latest Android Application, D1 Solutions has added several new features to their Auto Body Shop Management Platform, including:

- **Mitchell integration** – this integration allows an Auto Body shop to import Mitchell estimates into the D1 Solutions Auto Body Shop Management Platform allowing shops to compare labor and material costs to estimated costs.
- **CCC1 integration** – this integration allows an Auto Body shop to import CCC1 estimates into the D1 Solutions Auto Body Shop Management Platform allowing shops to compare labor and material costs to estimated costs.
- **Support for multiple shops** – this latest functionality allows shop owners to effectively manage multiple locations including Work Orders, labor costs, insurance estimates, profitability analysis, and customer communication.
- **Customer communication** – enhanced tools allowing customers to review the progress of their repairs online. Additional flexibility to allow shops to communicate the repair status of customer vehicles via text messaging or email.
- **Income vs Cost reporting** – updated tools that allow shop owners to track customer vehicles throughout the entire repair process allowing them to monitor profitability for each critical step.
