**Manchester, Dec 16, 2019 ([Issuewire.com](https://www.issuewire.com))** - Drake has released his fifth studio album Scorpion. The expansive two-side, 25-track album has features from the likes of Jay-Z, Michael Jackson and Static Major with Ty Dolla \$ign on the same song. The Michael Jackson feature is an unreleased vocal from the legendary artist on "Don't Matter To Me." [Download Drake Scorpion](#) from Apple Music or Spotify.

In its first day of release, Scorpion broke Spotify and Apple Music's single-day global record for album

streams with over 130 million streams and 170 million streams respectively, breaking Drake's own record set with *More Life* last year. And in its first week, *Scorpion* has pulled in over 1 billion streams globally, making it the first album that has hit this milestone in just one week, Billboard reports.

So far with *Scorpion*, Drake has earned his eighth consecutive no.1 album on Billboard 200 chart. If you subscribed Apple Music or Spotify, you can now easily access this hot album and all included titles with your membership on desktop or mobiles.

The album features guest appearances from Jay-Z and Ty Dolla Sign as well as posthumous appearances from Michael Jackson and Static Major, and additional vocals by a variety of artists, including James Fauntleroy, PartyNextDoor, Nicki Minaj, Future, Lil Wayne and Nai Palm. The album is executively produced by Drake himself, alongside frequent collaborator Noah "40" Shebib and manager Oliver El-Khatib, and features production from 40, alongside a variety of high-profile producers, including No I.D., Boi-1da, DJ Premier, DJ Paul, Tay Keith, T-Minus, Murda Beatz, Cardo and Noel Cadastre, among others.
