

Inderjit Singh Kainth, MD, an Internist with Brunswick Internal Medicine Group PC

Get to know Internist Dr. Inderjit Singh Kainth, who serves patients in New Jersey

New York City, Dec 20, 2019 (Issuewire.com) - As a board-certified internist, Dr. Kainth is the Owner of Brunswick Internal Medicine Group PC with locations in South Brunswick, Kendall Park, and Metuchen, New Jersey. He diagnoses and treats a diverse range of conditions for patients of all ages, including diabetes mellitus, hypertension, high cholesterol, arthritis, osteoporosis, obesity, back pain, and so much more. He also provides a comprehensive range of medical examinations and administers

vaccinations such as flu and pneumonia vaccinations.

Professionally, the doctor is also affiliated with several hospitals and medical centers in the area, including the Rutgers School of Dental Medicine, the Robert Wood Johnson University Hospital, Princeton University Hospital, Raritan Bay Medical Center, and JFK Medical Center.

A 1992 graduate of the University College of Medical Sciences in Delhi, India, Dr. Kainth relocated to the United States to complete his internship at the Robert Wood Johnson University Hospital in New Brunswick, New Jersey. He then completed residencies at Monmouth Medical Center in Long Branch, New Jersey and at Thomas Jefferson University Hospital in Philadelphia, Pennsylvania.

Following his education, he became board-certified in internal medicine by the American Board of Internal Medicine, a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Dr. Kainth is renowned for his patient-centric approach to medicine. He always takes his time to talk to patients about their conditions and possible treatments.

Internal medicine or general medicine is the medical specialty dealing with the prevention, diagnosis, and treatment of adult diseases. Physicians specializing in internal medicine are called internists. They manage and prevent common and complex diseases by providing comprehensive care and promoting overall well-being.
