

International Conference on Emerging trends in Cognitive Neuroscience: Forensics and Clinical Applications

Jan 20, 21, 22 - 2010, IBS GFSU, Gandhinagar, Gujarat

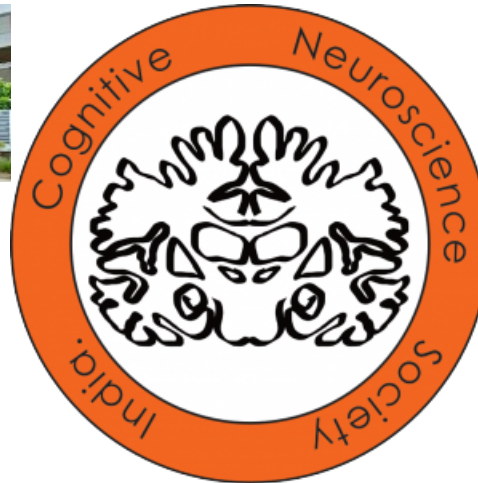

Gandhinagar, Dec 25, 2019 ([Issuewire.com](http://www.Issuewire.com)) - An International Conference on ***Emerging Trends in Cognitive Neuroscience: Forensics and Clinical Applications***, is being organised by the Institute of Behavioural Sciences, GFSU and CNSI between Jan 20th to 22nd 2020. The conference will provide a scientific platform to discuss recent research in the realm of cognitive neuroscience which have applications in the areas of Forensic and Clinical psychology. Cognitive Neuroscientists, Psychologists, Neurophysiologists and researchers and students working in cognitive neuroscience will find the conference beneficial.

The sub-themes of the conference include Behaviour, Emotion and Cognition, Theoretical and Computational Neurosciences, Neuroimaging and Deception Studies, Brain Dysfunction and Disorders, Developmental Neuroscience, Neurophysiology, Neurolinguistics, Neuropsychology, Clinical Neuroscience, Computation and Artificial Intelligence and Machine Learning in Neurosciences. The Registration for the conference is open. We also invite abstracts for the paper presentation in the line of above mentioned sub-themes.

The Gujarat Forensic Sciences University is the world's first and only University dedicated to Forensic and allied Sciences. Institute of Behavioural Science (IBS) is the section of GFSU representing the academic programs in the closely related behavioural areas with neurocognitive specialisation in Forensic Psychology in general, with special reference to neuropsychological and psychosocial genesis of criminal behaviour in individuals.

The Cognitive Neuroscience Society India (CNSI) aims at promoting and sharing of knowledge and skills in the domains of research, clinical, and academic efforts, for understanding the varied brain – mind relationships.
