

Jon D. Norberg, MD, a Hand Surgeon with Sanford Orthopedics and Sport Medicine Walk-In Clinic

Get to know Hand Surgeon Dr. Jon D. Norberg, who serves patients in Fargo, North Dakota.

New York City, Dec 20, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Norberg is a board-certified and fellowship-trained hand surgeon, who specializes in orthopedic surgery, particularly hand, wrist, and elbow conditions. Some of the conditions that he treats include carpal tunnel, trigger finger, fractures, arthritis, tendon injuries, dislocations, and cysts.

The doctor sees patients at Sanford Orthopedics and Sport Medicine Walk-In Clinic in Fargo, North Dakota. His approach is to handle each patient's individual needs with care, compassion, and proficiency. In doing so, he combines cutting-edge techniques with proven traditional methods to get the best possible outcomes.

After earning his Bachelor of Science degree from the University of North Dakota in Grand Forks in 1992, Dr. Norberg went on to obtain his medical degree from the University of North Dakota School of Medicine and Health Sciences in 1996. He completed his residency in orthopedic surgery at Summa Health System in Akron, Ohio, followed by his fellowship in hand surgery at the University of Pittsburgh Medical Center and his fellowship in upper extremity at Western Pennsylvania Hand & Trauma Center in Pittsburgh, Pennsylvania.

A member of the American Association for Surgery of the Hand and the American Academy of Orthopedic Surgeons, he is board-certified in orthopedic surgery by the American Board of Orthopedic Surgery (ABOS). The ABOS is an organization with the goal of establishing educational and professional standards for orthopedic residents and surgeons, as well as evaluating the qualifications and competence of orthopedic surgeons. It is a member of the American Board of Medical Specialties.

Hand surgery deals with both surgical and non-surgical treatment of conditions and problems that may take place in the hand or upper extremity, commonly from the tip of the hand to the shoulder, including injury and infection. Hand surgeons typically deal with the diagnosis and treatment of chronic and acute injuries or deformities of the upper extremities. This includes shoulder, upper arm, forearm, the hand itself, all fingers, and thumb surgery.

On a more personal note, Dr. Norberg has three children. He enjoys traveling, scuba diving, hunting, as well as playing racquetball and soccer.
