

MathoLetics Events Announces the commencement of Math Race Gurugram 2019 - 20

Through this Event, team MathoLetics wants to make an honest effort to change the mindset of students that Math is difficult.

Gurgaon, Dec 13, 2019 (Issuewire.com) - Through this Event, team [MathoLetics](#) wants to make an honest effort to change the mindset of students that Math is difficult.

Arithmophobia (Fear of Maths) is a global phenomenon. Research shows that more than 85% of students fear mathematics. They fear mathematics because everybody around them tells that MATH is complicated. People around them narrate their stories about how they used to bunk mathematics classes and score pass marks in the subject. They even go to the point of telling that even today, they are very poor with mathematics. The environment around them makes it more difficult, and the student develops a mindset that MATH is complicated. Math Race is an honest effort to change the mentality that MATH is difficult.

"I am happy to announce the commencement of this unique event. Math Race aims to make Mathematics fun and learning activities. This is where academics and sports mix to bring a unique event to the students of today.", says Mr. Pradeep Kumar, founder of Matholetics Events Pvt. Ltd.

Pradeep Kumar is B. Tech and an MBA from IIM Bangalore. He has 28 years of industry experience. He is a renowned Vedic Maths Expert. His book on Vedic Mathematics has been translated into more than 60 languages. He has developed a lot of games such as Math Carrom, Math Ludo, Math Card, Hazari Square, Frog & Toad Game, Star Game, Double Star Game, Math Checkers, MentOsAA, etc. and worked out a teaching system using Vedic Maths and games which took him 20 years. He owns more than 50 patents.

Steps of Math Race

Qualifying Round: Written Test at various test centers in Gurgaon

The examination will be open to all the students of classes III to VIII studying in schools affiliated to any Boards. Online Enrollment has already begun. We expect that 8,000 to 10,000 students would take the written test on 19th January 2020.

Math Race - Finale

Learning Mathematics through Athletics. Students selected at Qualifying Round would be called to participate in the finale, where they will solve problems while racing on the track. It would be conducted on 8th March 2020 at an appropriate venue.
