Potomac, Dec 5, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Breast Cancer survivor uses Breast cancer diagnosis to create a guide book to help women deal with the difficult and scary journey of Breast Cancer.

Being diagnosed with Breast Cancer at the age of 35, Breast cancer warrior Marquita Goodluck knew that she needed not only traditional medicine but a strong will to fight and survive to see her through her Breast Cancer journey. Determined to gain control of her life, she created a plan to beat Breast Cancer traditionally, holistically, and mentally. In her book, *“Cry, Learn, Adjust, Fight, and Repeat!!”*, Marquita walks you through the many strategies she utilized to combat the common fears, challenges, and obstacles that many Breast Cancer patients face.

“Like most women who are diagnosed under the age of 40, I thought that Breast Cancer was an older woman’s struggle. Never did I imagine that I would be diagnosed with this horrible disease.”

“ In this book, I will highlight the common fears and issues that women may face or struggle with during their Breast Cancer journey and provide ways to get through it. ”

Marquita Goodluck is available for media interviews and can be reached by email at marquitag@marquitawrites.com. *“Cry, Learn, Adjust, Fight, and Repeat!!”* is available in print and online retailers. Readers can get their copy from Amazon, Booksamillion.com, and Barnesandnoble.com. Book distribution is available through Ingram Spark. More information is available on her website www.marquitawrites.com.
