

ReachOut Announces Limited Period Festive Offer for All Customers

Customers can Avail Flat 30% Discount when Buying User Packs Using the Promo Coupon

White Plains, Dec 8, 2019 (Issuewire.com) - ReachOut Suite, the leading field service management solution from Fingent, has brought in a special promo offer for the festive season, giving all its customers flat 30% discount for purchasing user packs into their account. Valid till 31st December, this limited period offer brings substantial cost savings for customers interested in opting for user packs to expand their scope of operations.

Customers can opt for the discount by clicking **Add User** under **Account Settings**. They can select from any of the preset user packs displayed, check off the **I have a coupon** checkbox and enter the coupon code "**GIFT30**" to apply the promo coupon in their account. Both premium and existing free users can use the promo code to get a discount while opting for any user packs.

The promo coupon is applicable only when purchasing user packs before 31st December and not for individual users or storage packs. Besides, customers should take note that no discount is applicable to their existing billing amount.

Broadening accessibility to more of the team can radically improve on the bottom line. Granting access to ReachOut for every personnel whether on the field or the office ensures that timely service and efficiency go hand in hand. Besides, by adding new users to the platform, firms can continuously scale up to their team's growth and this limited-time offer brings exactly that to the table.
