

The Creation of ModelzOnly.com

Lacey, Dec 7, 2019 ([Issuewire.com](http://www.Issuewire.com)) - ModelzOnly is owned and operated by Ervin Solutions LLC which is based out of WA state. Started in 2019, ModelzOnly is a new website which allows content creators and influencers to monetize their exclusive content by signing up for a free profile, setting a profile subscription fee, then promoting their profile to their fans and followers to solicit them to become subscribers to their profile. ModelzOnly not only targets models to join, but also targets photographers, videographers, and modeling agencies alike to also join and monetize their content.

Ervin Solutions served as an industry leader with magazine publishing for the well-respected magazine STACK Models Magazine, which published over 40 premium titles while in circulation from 2012 – 2017, while also hosting the website stackmodelsinc.com, which published and promoted a variety of models. The website has since closed and now Ervin Solutions is introducing modelzonly.com to the public.

ModelzOnly offers its influencers 85% standard commission form all sales made via profile subscriptions, store items sold, and tips. Their affiliate program also offers 10% standard commission from all new sign up's. Like other subscription-based sites such as fancementro and onlyfans, modelzonly goal is to give the control over content back to the content creator and help provide ways to make unlimited income by a few simple taps of a screen or clicks of a mouse.
