

Daniel Patty, DPM, a Podiatrist with Foot & Ankle Clinics of Utah

Get to know Podiatrist Dr. Daniel Patty, who serves patients in Utah.

New York City, Jan 8, 2020 ([Issuewire.com](https://www.issuewire.com)) - Dr. Patty, a board-certified podiatrist & foot and ankle surgeon specializes in reconstructive foot surgery, bunions, sports medicine, pediatric foot care, same-day ingrown toenail treatment, diabetic foot and limb preservation, and all other issues pertaining to the foot and ankle. He serves patients at Foot & Ankle Clinics of Utah in Orem, Utah.

Foot & Ankle Clinics of Utah is a podiatry practice serving patients in and around the Utah County area. There, Dr. Patty and his team of professionals remain committed to helping patients manage and recover from foot-related issues, ultimately minimizing pain and restoring lost mobility and function.

Growing up in Lehi, Utah, Dr. Patty earned his Bachelor of Science degree from Brigham Young University. In 2011, he obtained his Doctor of Podiatric Medicine degree from Kent State University College of Podiatric Medicine in Independence, Ohio.

Following podiatry school, the doctor completed a three-year residency in podiatric medicine & foot and ankle surgery at Intermountain Medical Center in Murray, Utah. Although based in Murray, this residency program allowed him to work with a variety of physicians around the Salt Lake and Utah County area, where he developed expertise in the diagnosis and treatment of pathology affecting the pediatric and adult foot and ankle, diabetic foot care, and extensive foot and ankle trauma.

A member of the American Podiatric Medical Association and the Utah Podiatric Medical Association, Dr. Patty is board-certified through the American Board of Podiatric Medicine, which exists to offer podiatric physicians a comprehensive board qualification and certification process.

Podiatry is a branch of medicine devoted to the study, diagnosis, and medical and surgical treatment of a variety of disorders of the foot, ankle, and lower extremity. A podiatrist, also known as a podiatric physician or a foot and ankle surgeon, is a medical professional devoted to the treatment of disorders of the foot, ankle, and lower extremity. They can treat injuries and complications from ongoing health issues like diabetes.

Foot and ankle surgery is a sub-specialty of orthopedics and podiatry that deals with the treatment, diagnosis, and prevention of disorders of the foot and ankle. Foot and ankle surgeons are the surgical specialists of the podiatric profession. They provide complete medical and surgical care for a variety of conditions that affect people of every age.

On a more personal note, Dr. Patty is married and has three beautiful children. He enjoys mountain biking, hiking, practicing mixed martial arts, cooking, and spending time with family and friends when he is not working.
