

Fido Merchant Services Expands to Europe

Fido Merchant Services, a UK based Online Payments Processing and Payments Gateway Company has expanded to the European Market. They offer Online Merchant accounts, Payments gateway technology and Online Pre-Paid Card solutions for EU / EEA companies

London, Jan 8, 2020 ([Issuewire.com](https://www.issuewire.com)) - Fido Merchant Services, a UK based Online Payments Processing and Payments Gateway Company has expanded to the European Market. They offer Online Merchant accounts, Payments gateway technology and Online Pre-Paid Card solutions for EU and EEA based Merchants and Fintech companies wanting own branded cards for their customers.

“We want to enable businesses to accept cards online at competitive rates and without adding friction to the cardholders using the latest payments gateway technology,” said Paul Kenner, Head of Sales in the EU for Fido Merchant Services.

According to a paper by Visa Europe, millennials are driving the digital payment revolution and more people are transacting online, demanding safe and secure but also simple payments flows.

“Fido Merchant Services enable both merchants and cardholders to make and receive payments using the latest technology and security features like the latest 3D Secure version that protects the ecosystem from Fraud. Our offering includes all major card acquiring services (Visa, MasterCard, American Express and China

UnionPay)” said Paul Kenner.

FIDO Smart Payments Gateway also offers alternative payments options like Skrill, Neteller, Klarna and many others.

“We offer our solution to both normal retailers selling goods online but also to companies offering trading or other crypto solutions to customers. Our key difference is our understanding of managing and supporting merchants on questions related to risk and fraud,” said Paul Kenner.

About Fido Merchant Services

Fido Merchant Services is revolutionising the payments world with new and innovative technology to secure and simplify the payments flows. We aim to enable companies to accept cards but also give them the opportunity to offer pre-paid cards to their customers with own branding and maybe allow them to become the next fintech company. Fido has offices in the UK, USA and Malta and service Customers in the EU, EEA, and USA. Please visit fidoms.com
