

## Mobile Home 4u hits 300 homes on 3rd year anniversary

**West Yorkshire, Jan 30, 2020 ([IssueWire.com](https://www.issuewire.com))** - Mobile Homes 4u celebrated its 3rd birthday this month and also hit the landmark of having 300 caravans/mobile homes on its website.

Mobile Home 4u was set up by [Traknet Web Design](#) to make it easy for private owners of static caravans / mobile homes in the UK and Europe to rent out their homes when they were not using them themselves. Holiday parks often offer a service where they can rent out private homes on behalf of the owner but they take a commission (often quite large) and the owner is not in full control. Advertising and handling rental of their home gives the owner complete control.

Mobile Homes 4u website allows owners to advertise their homes at low cost but with good exposure. Over the 3 years since they they have worked hard on SEO to ensure the website has climbed the rankings and are now getting the rewards with many pages ranking on the 1st page of Google.

Mobile Homes 4u doesn't just benefit mobile home/caravan owners, it also benefits holiday makers who can hire a home from a private owner at lower cost than renting from the holiday park and also they usually get a more luxurious home. Holiday makers simply go to the website at <https://www.mobilehomes4u.co.uk>, look through the homes then contact the owners direct.

Mobile Homes 4u will continue to invest in the site and hope by their 4th birthday they can hit 500 homes!
