

## Norman McCoomer, MD, MPH, a Physiatrist with Pain & Rehabilitation Consultants

Get to know Physiatrist Dr. Norman McCoomer, who serves patients in Madison, Alabama.

**New York City, Jan 22, 2020 ([Issuewire.com](https://www.issuewire.com))** - Dr. McCoomer, a board-certified physiatrist, has improved the quality of life for thousands of patients. As the Owner of Pain & Rehabilitation Consultants in Madison, Alabama, he prides himself on keeping his practice up to date on the latest techniques and procedures that are available. He practices a comprehensive approach to managing pain, which includes both interventional and medical techniques. His approach is multidisciplinary, working closely with other specialists to optimally coordinate care and providing the highest quality care and service to the community.

Pain & Rehabilitation Consultants will provide a multidisciplinary approach to the management of chronic pain and other medical conditions which may benefit from the expertise of a specialist in physical medicine and rehabilitation. These services will include evaluation of patients from a musculoskeletal approach, with the integration of pain management including, but not limited to, medications and more advanced interventional pain procedures. The goal is to obtain a good quality of life while maintaining functional health.

Recognized as an expert in his field, Dr. McCoomer tries to make the complexity of pain simple by establishing a diagnosis and identifying the pain generator and amplifier. He believes that pain should be treated and managed using many modalities. Medications, procedures, physical therapy, and

psychiatric therapy are modalities he often employs together to return function and quality of life to those in pain. He also recognizes the resources and time required to diagnose, treat, and monitor patients in pain.

A 2001 graduate of the University of Kentucky College of Medicine, Dr. McCoomer spent his internship year in internal medicine. He then went on to complete his residency in physical medicine & rehabilitation at VCU Health, followed by his fellowship in pain medicine at the same educational venue. He also obtained a Master of Public Health degree from Emory University in Atlanta, Georgia.

The doctor is dual board-certified in pain medicine and physical medicine & rehabilitation by the American Board of Physical Medicine and Rehabilitation, which was established in 1947 as the certifying body for the field of physical medicine and rehabilitation under the American Board of Medical Specialties. He is also a member of the American Society of Interventional Pain Physicians, the American Academy of Physical Medicine and Rehabilitation, and the American Academy of Pain Medicine.

Physical medicine and rehabilitation, also known as physiatry and physiatrics, is a branch of medicine that aims to enhance and restore functional ability and quality of life to those with physical impairments or disabilities. Physiatrists treat a wide variety of medical conditions affecting the brain, spinal cord, nerves, bones, joints, ligaments, muscles, and tendons. Dr. McCoomer understands that patients' pain is multifactorial, thus utilizing a comprehensive treatment approach, which includes injection techniques under ultrasound imaging, physical therapy and wellness, nutrition, as well as medications. In all, the goal is to give his patients the opportunity to improve their function and quality of life, as well as to maintain their health through overall wellness.
