

5th Edition of International Conference and Exhibition on Polymer Chemistry during March 23-24, 2020

Polymer Chemistry 2020

London, Feb 10, 2020 ([Issuewire.com](http://www.Issuewire.com)) - 5th Edition of International Conference and Exhibition on Polymer Chemistry

Major Keywords: [Polymer Science Conferences 2020](#), [Polymer Chemistry Conferences](#), [Polymer Chemistry Meetings](#), [Polymer Science 2019 Conference](#), [Polymer Science events](#), [Polymer Science meetings](#), [Polymer Congress 2020](#), Biopolymers 2020, Biopolymers & Bioplastics Meetings 2020, biopolymer Conferences, International Polymer Science Conferences, Conference on Polymer Chemistry, Polymer Chemistry Congress, Frontiers in Polymer Science, Polymer conferences, Chemistry Conferences, Chemistry Meetings, Polymer Science Conferences in Berlin, List of Polymer Chemistry Conferences in Europe, Polymer events in Europe, Polymer conferences in Europe, Polymer Science and Composite Materials Conferences, global polymer science conferences, upcoming polymer science conferences, Euro Polymer Science conferences

Information about the previous conference 4 to 5 Lines: On successful completion of 4th Edition of International Conference and Exhibition on Polymer Chemistry which was scheduled during March 28-29, 2019 at Rome, Italy. The conference was initiated with the presence of prominent scientists and keynote speakers. The conference was a huge success with the theme “Exploring recent advances in Polymer chemistry, related fields and applications” 4th Edition of European Conference on polymer chemistry was inaugurated by the keynote session by Adam Voelkel Poznan, University Of Technology, Poland with the title “**Inverse gas chromatography in the examination of alumina silicate/resin composites**” and by HIROYUKI AOKI, J-PARC Center, Japan Atomic Energy Agency, Japan with the title “**Structure and dynamics in ultrathin films of poly (alkyl methacrylate) prepared by spin-coating method**”. Supported through the organizing committee network of renowned scientific and professional experts such as Suzanna Buchwald, Poznan University Of Technology, Poland, Tsukasa Miyazaki, Comprehensive Research Organization for Science and Society (CROSS), Neutron Science

and Technology Center, Japan, Hsin-Wei Jung, Fu Jen Catholic University, Taiwan, mine Gul Cansu-Ergun, Baskent University, Turkey, Wael Mahmoud Ahmed, National Research Centre, Egypt, Pourya Zarshenas, Shahid Beheshti University, Iran, Pablo R Outon Indresmat SL, Spain, Rahima S Mammadova, Azerbaijan State Pedagogical University, Azerbaijan and Sheta Mahamed, National Research Centre, Egypt, it provided a platform for collaboration among colleagues, vendors and academia to reveal new innovations, solutions, ideas and emerging technologies in Polymer Design, Biopolymers, Biodegradable Plastics, Polymer Films, Polymer Foams, Polymer Nanotechnology, Polymer Physics, Polymer Synthesis, Polymer Technology, Polymerization, Polymers Group, Supramolecular Polymers, Polymer Science and Polymer Engineering.

Details about the conference: 5 to 10 Lines. (In this paragraph, all hyperlinks will be given to the subject keywords)

Chemistry Conferences team is glad to announce 5th Edition of International Conference and Exhibition on Polymer Chemistry which is scheduled to be held during March 23-24, 2020 London. The UK and the event are enlightened with the theme “Exploring recent advances in Polymer chemistry, related fields and applications.”

We gladly welcome attendees all around the world for the hearing of the leading recent innovations and inventions in the field of Polymer Design, Biopolymers, Biodegradable Plastics, Polymer Films, Polymer Foams, Polymer Nanotechnology, Polymer Physics, Polymer Synthesis, Polymer Technology, Polymerization, Polymers Group, Supramolecular Polymers, Polymer Science and Polymer Engineering. This Polymer Chemistry Conference will provide a forum for the exchange of ideas and authoritative views by leading scientists, trade specialists and from the academicians of the best institutes from around the globe. Settled keynote speakers and well known leading scientists and experts from around the globe will be expected to share their awareness and talk about various aspects related to various frontlines in the field of Polymer chemistry. Polymer Chemistry Conference 2020 will bring together Eminent Scientists/ Research Professors in the field of polymer chemistry, Junior/Senior research fellows, Students, Directors of polymer research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Polymer Industry/Plastic Industries to magnifying scientific knowledge by sharing the research and ideas. This scientific networking helps for the betterment of science by exchanging the ideas in a broader way.

The participants can exchange and share their research results covering the scientific aspect of Polymers in Construction, Bio-Based Polymers, Polymer Electronics, Polymer Optical Fibres, Packaging Polymers, Rubber and Plastic Products, Synthetic Polymers, Polymers in Medicine, Polymers in Sport and Leisure, Polymer Coating in the Polymer Chemistry Conference 2020, Recent Developments in Polymer Synthesis, Polymer Design and Reaction, Polymer Physics and Characterizations, Stereochemistry of Polymers, Biodegradable Polymers, Polymer Engineering, Polymers for Emerging Technologies, PolymerizationCatalysis, Applications of Biopolymers, Bioplastics, Polymer Nanotechnology, Polymer Science, Future Market of Polymers.
