

Canary Tech LTD sets to Launch Nigeria's Tricycle Hailing Service; Dansahu!

Nassarawa, Feb 18, 2020 (Issuewire.com) - Nigerian Tech giant, Canary Tech aims to make transportation around the Northern part of Nigeria easier, safer and more affordable by launching a phenomenal tricycle-hailing app, Dansahu. This hailing service will offer a very fast service to solve people's transportation needs and also create employment opportunities.

Dansahu distinguishes itself in a competitive market space by focusing on Customer Service, Honesty, Integrity and Transparency, Safety and Security, Innovative Technology, etc. The premier app will require tech literacy, compatible smartphones, and valid internet coverage.

Some of the Dansahu App key features and benefits include:

- **Wallet to Wallet Transfer:** easily and conveniently transfer credit from one wallet to another instantly.
- **In-App Call & Chat:** riders and drivers can easily communicate with each other using the in-app call function, without having to use their call credits or even expose their mobile phone numbers.
- **SOS Panic Button:** a safety and security feature that allows both riders and drivers to have up to 5 emergency contacts on their emergency contact list. In the event of an emergency, the SOS panic button sends an SOS message to the emergency contacts with complete details of the trip, including the time and location of pickup, destination, driver details, and tricycle details. The same SOS message is also sent to the police and security agencies.
- **Pay Per KM:** all trip fares are calculated on a charge per kilometer. Our pricing and fare calculation engine algorithm were developed to mirror real market pricing conditions, with the added sophistication and accuracy of technology-assisted distance measurement using state of the art in-built geographic information system and mapping technology.
- **In-App Live Chat:** As part of the customer support strategy to ensure world-class services to both riders and drivers, Dansahu App has an in-built live chat application that allows customers to instantly chat with a support agent for the immediate resolutions to their problems.

How to Enjoy Fast Affordable Ride On Dansahu

Step 1: Download the Dansahu app from Google Playstore or Apple App Store,

Step 2: Register as a user (rider/driver)

Step 3: Fund your wallet

Step 4: Activate location on your device

Step 5: Select Your Pickup Location

Step 6: Select Your Destination

Step 7: Book and Enjoy the Fast Ride

About Dansahu

Dansahu is the flagship product from Canary Tech LTD which focuses on the Tricycle and Taxi hauling sector to solve transport challenges in the Northern part of the Country. It has been designed for convenient peer-to-peer ride-sharing and ride-hailing service. The Dansahu brand was several years in the making, with intensive research and development taking into consideration the local peculiarities and challenges associated with public transportation in the north and Nigeria as a whole.
