

Charleito taking the lead for Indiana with the release of his latest single “Got That Effect”

Indianapolis, Feb 18, 2020 (Issuewire.com) - Charleito is a solo artist from Marion, Indiana. He has a focus on creating a fervent and innovative sound, which combines the energy of hip-hop with the melodies of R&B and other influences.

Recently, the artist set out to release a brand new single, an exciting song titled “Got That Effect.” The

track is going to premier [on the 18th of February](#), and it follows the artist's "Solidified," album, which came out on the previous Halloween.

This song hits the mark, not only in terms of production, but also when it comes to its execution, which is perhaps the most important aspect of any song or album as a whole.

The vocals in particular are inspired, direct and exciting, with a very dynamic feel and a stunning tone that sounds very charismatic and loaded with personality. In addition to that, the sound of this release has a smooth, balanced tone, which really makes me think classic hip-hop tracks, as well as modern bangers.

In conclusion, this is definitely going to be a great new discovery for any hip-hop fans, or for anyone who enjoys forward-thinking music with personality! Charleito is a very eclectic performer who really has a knack for thinking outside the box and creating music that defies genre definitions and barriers.
