

DuVall Enterprises Hires Claudia MacPhee as Executive Recruiter

Claudia MacPhee brings over 2 decades of experience to DuVall Enterprises

Goodyear, Feb 14, 2020 ([IssueWire.com](https://www.issuewire.com)) - DuVall Enterprises Hires Claudia MacPhee as Executive Recruiter

DuVall Enterprises hired Claudia MacPhee as Executive Recruiter. MacPhee will be leading efforts in developing Engineering, Construction, and Department of Defense Clients.

MacPhee brings with her over 25 years of experience in office management, community liaison, economic development, and entrepreneurial work. Presently, in addition to her work with DuVall, she is the Administrative Director and Co-Owner of Grizzly Hitch Consulting. In her previous positions, she was the Platte County Economic Development Director, Partner in American Renewable Energy Associates, Co-Founder of McCauley Wyoming Constructors, Co-Founder of Warrior Lifeline, Project

and Planning Analyst and QA/QC officer with the Wyoming Military Department, an Army Community of Excellence National Examiner and Examination Team Director, as well as the editor of The Platte County Record Times and Guernsey Gazette. MacPhee won a Special Merit Award and an Editorial of the Year from the Wyoming Press Association during her tenure with the Record Times. MacPhee was also the office manager for the WYDOT Engineering office for several years.

We are excited about adding MacPhee to the team because of the diversity in her personal responsibilities and positions within the Engineering and Construction Industries. She brings critical knowledge of the day to day workings and intimate familiarity with how engineering offices are run as well as what it takes to see a project from beginning through completion. “Claudia brings critical insight into one of our niche industries that can’t be gained without her personal background. We are excited to have her on board.” Says Leo DuVall, President.

DuVall Enterprises is a small, results-driven recruiting firm specializing in Mining, Oil and Gas, Security, Department of Energy Contract, Department of Defense Contract, Construction, Engineering, and Nuclear Engineering openings.
