

Facile Info-Serv Enters Digital IT Arena

~The company metamorphosing to represent digital bastion~

Pune, Feb 26, 2020 ([Issuewire.com](https://www.issuewire.com)) - Facile Info-Serv Private Limited announced its expansion from the market research and data solutions arena to the [digital transformation services](#). The aspiration is to build on the digital world promise and offer world-class solutions and services. Its newest offerings include the entire gamut of Enterprise Services suite—Product Engineering, Application Services, ERP, Cloud, Mobility, QA & Testing, and Skilled Resource Services

Facile's diversification is a natural progression in line with the exponential growth witnessed since its inception in early 2018. This recent digital turnaround and its data innovation capabilities mark its distinct space in the IT circle. With a tremendous growth story, even the Big Four tech companies constitute its esteemed clientele, which is ever-growing with the increased offerings.

The company's strategic movement toward digital is also fueled by IDC's recent forecast of \$1.97 trillion spendings on digital transformation in 2022. The digital economy is at a tipping point, and the technologies and services enabling the digital transformation of business practices, products, and organizations are the new future.

Commenting on the development, Mr. Samir Singh, Vice President, Facile Info-Serv Private Limited, expressed confidence in the evolving endeavor stating, "Our IT strategy consulting across the globe and an excellent customer satisfaction quotient gives us an impetus every time to perform better. With our latest offerings, we are completely immersed and committed to the future of the digital economy."

About Facile: Facile Info-Serv Private Limited is a global brand founded in 2018. Headquartered in India and spread across the US, UK, Europe, Dubai, and the Philippines, its distinct digital IT offerings include a range of Enterprise Services to collaborate for a future-proof business. Catering to both large and small-sized companies, Facile understands the pulse of the customer and offers practical, flexible, and suitable solutions and services for an effective revenue stream.

Facile's host of services include Product Engineering, Application Services, ERP, Cloud, Mobility, QA & Testing, and Skilled Resource Services. Its clientele includes Fortune 500 companies, and their testimonies speak for the kind of work delivered. It swears by innovation, agility, and customer satisfaction at all times.
