

Sharon Minott-Warren, DDS, a Periodontist with Bellaire Periodontics

Get to know Periodontist Dr. Sharon Minott-Warren, who serves patients in Bellaire, Texas.

New York City, Feb 25, 2020 ([Issuewire.com](https://www.issuewire.com)) - Dr. Minott-Warren, an experienced periodontist, is the owner of Bellaire Periodontics in Bellaire, Texas. She and her elite team are focused on providing patients with services that can improve their oral health and fight gum disease. They have years of experience, cutting-edge technology, and a compassionate environment to ensure each patient receives the level of care they deserve.

A leader in surgical dentistry, Dr. Minott-Warren is a graduate of Columbia University, where she earned her Doctor of Dental Surgery degree in 1992. After graduating, she completed a one-year general practice residency at Cedars Sinai in Los Angeles, California. In 1993, she moved to Houston and practiced general dentistry for three years.

Three years later, in 1996, she attended Oregon Health Science University to pursue a three-year residency in periodontics and implant dentistry. During this time, she also participated in extensive research on bone grafting and orthodontics.

Currently, Dr. Warren is an Active Member of the American Dental Association, the Academy of Osseointegration, the American Academy of Periodontology and Synergy in Periodontics. She is also a Leader of a Spear Study Club (Bellaire Periodontics Spear Study Club) and the Director of Bellaire Periodontics Dental Hygiene Study Club.

Driven by her commitment to sharing her passion for Dental Implantology, in 2019 Dr. Warren started the first national chapter of WIN (Women Implantology Network), intended to allow more women to participate and lead in the field of Dental Implantology.

Additionally, she is certified with PACE to facilitate continuing education credits courses for dental professionals. She frequently gives seminars locally to other general dentists and their staff on current topics and regularly attends meetings of various organizations.

Periodontology or periodontics is the specialty of dentistry that studies supporting structures of teeth, as well as diseases and conditions that affect them. A periodontist is a dentist who specializes in the prevention, diagnosis, and treatment of periodontal disease, and in the placement of dental implants. They are familiar with the latest techniques for diagnosing and treating periodontal disease, as well as trained in performing cosmetic periodontal procedures.

Having lectured both nationally and internationally, Dr. Minott-Warren lectured at the Bahamas Dental Association on the role of the periodontist in dentistry in November of 2008.
