

Stariver Circuits Group -PCB leading manufacturer in China ;2-12 layers PCB manufacturer

PCB manufacturer

Shenzhen, Feb 20, 2020 (Issuewire.com) - [Stariver Circuits Group](#) was established since 1998, it's an amazing journey, we began as a trading company with only 4 people. With years development, we built our first plant Shenzhen Stairiver in 2005, now we set up Fujian and Huangshi plant to work as a group company with our branch offices in Fujian, Huangshi, Shanghai, Beijing, and Hong Kong. Thanks to our talented workers, valued customers and strong material suppliers who make Stariver today. Now we have more than 1200 employees who stay with us like family and over 700 Million sales performance last year and we are still growing. Stariver will keep working together with our customers, suppliers, and staff to take every possible challenge in the future.
