Mumbai, Feb 25, 2020 (Issuewire.com) - Zencommerce India Private Limited receives “**The Most Affordable Ecommerce Software**” award certificate at ‘SoftwareSuggest Recognition Awards 2020’ on 14th February 2020. Looking upon Zencommerce India’s price pattern and the exceptional services which are provided at the same price, SoftwareSuggest panel awarded Zencommerce India Private Limited with “The Most Affordable Software” Title. Zencommerce India provides an Ecommerce platform that is very budget-friendly and affordable; People who earn less than one lakh rupee per year or students can also afford the software.

About SoftwareSuggest:

SoftwareSuggest helps People to discover top business software and service partners. They list, review, compare & offer a free consultation of business software and service solutions so that they’re guaranteed to find the best match for their business.

About Zencommerce:

Zencommerce India started in 2014, provides a very user-friendly SaaS-Based ideal E-commerce platform solutions for those who want quick and professional set up for their business to buy & sell activity on the internet or who want to expand their business globally with the help of online store [webshop] and online market. Zencommerce India is leading in the domestic E-commerce market by more than 3800+ users and is still growing from micro to large trading companies operating locally and internationally. Zencommerce’s platform provides a bundle of solutions like payment solution, logistics support, order notifications through email and SMS along with marketing options that help one in driving direct and indirect traffic to the e-store. There’s so much under one roof and the merchants are on-boarded in just a few minutes. The platform has received awards for the best ‘E-commerce Platform’ for three consecutive years, Kudos to them.

SoftwareSuggest gives this award to Zencommerce because they understand the need for new businessmen or entrepreneurs and they understand how much online market matters today, through online no businesses are limited to a particular territory. Post demonetization in India, many shopkeepers had to adopt digital methods of payment. This issue was resolved by Zencommerce as it offers budget-friendly inbuilt functionalities that facilitate payment acceptance against the products in their online store. The creative layouts and pool of graphic skins provided by Zencommerce also help make business websites attractive. Web stores can be updated with the help of social media and inbuilt

SEO such that the user can control it easily from their administration panel. Zencommerce believes in constantly evolving, adapting the growing needs of an online store to meet the requirements of its customers.
