

Ben L. Sueoka, MD, a Radiologist with Baylor Scott & White Medical Center - College Station

Get to know Radiologist Dr. Ben L. Sueoka, who serves patients in College Station, Texas.

New York City, Mar 18, 2020 ([IssueWire.com](https://www.issuewire.com)) - Dr. Sueoka, a board-certified radiologist, practices at Baylor Scott & White Medical Center - College Station in Texas. His main objective is to provide personalized health and wellness, thereby allowing patients to achieve optimal results and increased quality of life.

As a part of Baylor Scott & White Health, Baylor Scott & White Medical Center - College Station is a five-story, 143-bed hospital located on a 98-acre campus near the intersection of Texas Highway 6 and Rock Prairie Road. The College Station Hospital is the latest example of Scott & White's commitment to providing the best and most accessible healthcare.

A member of the Society of Interventional Radiology, the doctor is also affiliated with other hospitals that are a part of the Baylor Scott & White Health network, including Baylor Scott & White Medical Center - Temple and Baylor Scott & White Medical Center - Brenham.

Throughout his academic career, Dr. Sueoka earned his medical degree from The Robert Larner, M.D. College of Medicine at The University of Vermont in 1980. He then went on to complete his residency in diagnostic radiology at Tripler Army Medical Center in Honolulu, Hawaii in 1984.

With an impressive professional journey filled with numerous achievements, he is board-certified in diagnostic radiology and vascular & interventional radiology by the American Board of Radiology, which is a not-for-profit physician-led organization that oversees the certification and ongoing professional development of specialists in diagnostic radiology, interventional radiology, radiation oncology, and medical physics.

Interventional Radiologists are board-certified physicians who use imaging guidance to deliver minimally invasive targeted treatments with a quicker recovery. IR's help treats many of today's toughest medical problems, including cancers, vascular diseases, and men's and women's health conditions.
