

Chit2am: Rise of the First Persian Rapper In Montreal

Emergence of Persian HipHop in Montreal

Montreal, Mar 13, 2020 (Issuewire.com) - Self-made vocalist Chit2am is a rising star of the Persian rap scene. With more than 10 song releases since the beginning of 2018, his tunes have been streamed over a million times on the leading Persian music platform, Radio Javan, and all other platforms. His tuneful melodies float over the hi-hats, kick drums and moody ambiance of tracks influenced by the 'Trap' music of the American Southern States. Perfect for the club, the car or just chilling, this is the soundtrack for a sophisticated urban crowd that likes to live life to the full. The noise around Chit2am's

releases has built through teasers on his much-followed Instagram feed [@Chit2am](#), featuring the singer in fast cars, in the studio and poolside, showing the realization of a young entrepreneur's dreams.

Chit2am's musical success is the creative flowering that follows years of dedication and hard work building up his business enterprises. He was born in Isfahan in 1998 as Mehdi Chitsaz. Showing early promise in music, he took up the guitar and piano as a child and was soon playing professionally.

He moved to Montreal, Canada in 2014 when he was 15 years old. He has been singing since 2016. By the age of 17, he had begun to see great results from his efforts. He then began training others to do what he did, creating more opportunities for more people, and investing in other projects to help them flourish. While studying at university, Mehdi moved naturally into software development and created an exchange system incorporating stock markets and computer games. He recently has dedicated his skills to developing the ideas of other young talents instead of developing computer games; he looks for them, helps them grow, and supports them in selling their ideas and developing their skills. Mehdi contributed to hundreds of unique, one-of-a-kind projects. Because of the passion he had toward Rap/Hip-hop Music, he started to use his skills in one of the biggest Persian Rap websites known as “Yeke Montreal”.

Mehdi started his Musical career with “Nicotine”, a local producer and his best friend in Montreal. They produced a few unofficial singles which were never released.

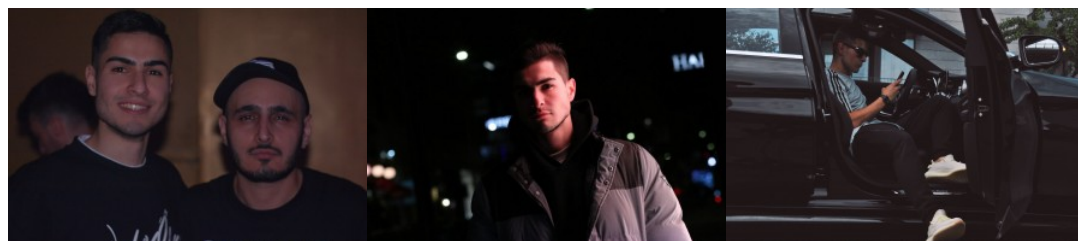

During the following months and years, Mehdi turned his attention towards bigger projects. In 2018 he made a collaboration song called [“Sedaye Ayande”](#) with Nima Nimosh who is one of the very well known Persian rappers. In 2019 he released a song called “Captain” which was produced by Khashayar Sr, a known producer collaborating with TikTaak group and Sepehr Khalse, which brought him an opportunity to be featured in [“Bez Jibet – Remix”](#) by Behzad Leito and Sepehr Khalse with the artist name of Chit2am. This collaboration made him more popular among all Iranian communities and created the opportunity for him to perform alongside Sepehr Khalse in the biggest Persian valentine party of Montreal, which was one of his biggest goals in his artistic career.

The performance was a team effort of the “Yeke Montreal” team in which Mehdi also took part as a contributor. As the founder of the [“Yeke Montreal”](#) label, Mehdi has collaborated with the young local entrepreneur Arash Zebarjad, and has worked with locally known Iranian brands and names in Montreal such as Haftah magazine. He currently studies Software engineering at the Concordia University of Montreal, and his goal is to integrate his ideas in software and app development into his biggest passion which is the music and rap industry.
