

DxMinds proceeds expansion with new Bangalore office opening and brand launch

DxMinds inaugurated its second Innovation Lab in Bangalore and launched DxAutomotive a brand new automotive division

Bengaluru, Mar 18, 2020 ([Issuewire.com](https://www.issuewire.com)) - [DxMinds Innovation Labs](#), the global service providers in digital transformation and mobile application development services, continues its expansion with the second innovation lab opened in Bangalore today. The event also witnessed the launch of a new brand under the DxMinds Group, DxAutomotive System, which is likely to deal with providing technology solutions for automobiles and electric vehicles.

"Our mission is to add more value to the mobility sector by the best practices and application of technology. We have a multitude of homegrown solutions to make this happen. We acutely center on working with OEMs, innovative start-ups and global fortune companies in leveraging our solutions. We are excitedly looking forward" - commented Mr. Ed Paymon based out in San Francisco (CEO, DxAutomotive Systems) who is having decades of experience in the automotive tech industry. He also said that the company is focused on building future-ready autonomous automotive products, which is going to bring a big revolution in the market. DxAutomotive is already working with customers on EV

Rideshare Apps along with IoT hardware, which is being launched by May 2020.

Other than **DxAutomotive Systems**, DxMinds group of companies, as of now has four more brands under it, in particular, **DxMinds Technology** — Technology Service company focused on delivering Mobile App, AI, Blockchain, AR/VR Apps. **NearLearn**- an ed-tech company, [DxTravela](#)- a travel technology company, and **DxBots**- an interactive platform to build AI chatbots.

As a part of conveying uninterrupted service in the Delhi-NCR region, DxMinds is all set to open its new innovation Lab in New Delhi as well. “This is a colossal door of opportunities for us just *as young talents. We are looking for resources who have the same mission as ours.* We couldn’t imagine anything better than to connect with those sorts of individuals”- told Mr. BhabaniSankar Jena, (Group CEO, DxMinds). DxMinds is going to increase it’s global strength to 100 this year by end of 2020, where it is going to hire Mobile App, AI, Automotive, IoT, Full stack developers with Sales and Marketing resources for its Bangalore, New Delhi, and San Francisco office.

DxMinds currently delivers its impeccable services all across the globe and has physical offices and dedicated representatives in India, the USA, Peru, UAE, and Australia. The company hosts 30+ ready to serve solutions that help customers in scaling their business along various verticals.
